Mrs. Philip Geraci, Jr.
2201 Green Acres Road
Metairie, Louisiana

Dear Mrs. Geraci:

I was very disturbed last week to learn that you
allegedly advised several persons (one of whom was Mr.
H. Wright,) that you personally did not want to prosec
civil claim relative to your husband's death, but that
were doing so because I had "solicited" you in this ma
Further, I was advised by Mr. Wright that allegedly ac
to you I had persisted in calling you until you decide
ahead with this case - otherwise, you would not have b
with this case at all; except for my persistence and i
you would not have done anything in the case.

This, of course, is completely untrue as you well
and it is personally offensive to me since I have gone
my way to assist you in anything that I could without
of compensation.

I have spent a great deal of time discussing your
problems with you ever since the untimely death of yo
including the representation of your son in a most ti
suming case, all without even discussing a fee. As a
my most precious commodity is my time.

Although the patent facts of your husband's deat
clear cut, I wanted to make certain that every possib
explored and I associated another attorney, Charles R
to check out every aspect. I did this also, without
cussion of a fee, nor any contract between us being s
even mentioned.
